‘BOMBS INSIDE WTC’

FIRE OFFICER SAYS FIREMEN, COPS KNOW TRUTH

By Victor Thorn

NEW YORK CITY, N.Y.—On the morning of Sept. 11, 2005, New York City auxiliary fire lieutenant Paul Isaac Jr. asserted, yet again, that 9-11 was an inside job. “I know 9-11 was an inside job. The police know it’s an inside job; and the firemen know it too,” said Isaac.

The ramifications of this statement are immense: One of New York’s own firefighters says publicly that 9-11 couldn’t have been the work of Osama bin Laden and al Qaeda, but instead was planned, coordinated and executed by elements within our own government.

He also added, after pointing to throngs of police officers standing around us, that, “We all have to be very careful about how we handle it.”

Isaac reiterated what a 9-11

survivor told this journalist during our protest at Ground Zero on Sept. 11, 2005—that emergency radios were buzzing with information about bombs being detonated inside the World Trade Center towers.

Also, Isaac directly addressed a gag order that has been placed on firemen and police officers in New York.

“It’s amazing how many people are afraid to talk for fear of retaliation or losing their jobs,” said Isaac, regarding the FBI gag order placed on law enforcement and fire department officials, preventing them from openly talking about any inside knowledge of 9-11. There is more information related to Isaac circulating in on-line and print reports, so here again we are hearing first-hand evidence from individuals who were on the scene, such as live witness William Rodriguez, saying that the World Trade Center towers were brought down not by the airliner’s impact or the resulting jet fuel fires, but instead by a deliberately executed controlled demolition.

Tragically, due to heavy-handed pressure from officials at the city, state and federal levels, we are still not hearing the entire story.

Researcher Vincent Sammartino, who was also at the WTC “open grave site” on the afternoon of Sept. 11, 2005, wrote the following on the on-line news web site APFN: “I just got back from Ground Zero. People know the truth. Half of the police and firemen were coming up to us and telling us that they know that 9-11 was an inside job. They were told not to talk about it. But they were supporting what we

were doing. I had tears in my eyes.”
